

Financial Aid for Animals

Lifeline 4 Paws is a California based organization assisting qualified California 501(c)(3) Rescue Groups with medical support for sick and injured dogs in their care. Unfortunately, we do not have funding for pet owners or rescue groups outside of California. Below is a list of other resources for rescues and pet owners.

The inclusion of a service, organization or program in this listing is NOT an endorsement or recommendation. We have no affiliation with any of the organizations or programs listed. We strongly suggest you evaluate each group and review carefully their policies and requirements before applying. Please also note that some of these programs require that the request be made prior to the animal being treated, and that most programs are limited in the amount they can grant for a specific request. Generally, grants are between \$25 – 500, so it's important to check with several sources and to also try to raise funds yourself.

Care Credit personal line of credit for healthcare treatments and procedures for your entire family, including your pets.
